## Master your tax compliance within your ERP

Avalara integrates seamlessly with Acumatica, the fastest-growing cloud and mobile ERP solution for mid-size companies.

For most businesses sales tax is an obligatory, complex nightmare. Automating this process saves time, money, and effort. Avalara, working inside of Acumatica Sales Order Management and Commerce Edition, dynamically delivers instantaneous sales tax decisions based on precise geo-location in more than 10,000 taxing jurisdictions. The system automatically considers hundreds of thousands of taxability rules and the latest jurisdiction boundaries to deliver the right rate and tax calculation, every time.

## ACUMATICA CLOUD ERP SOLUTIONS

| | |
|---|---|
| **Financial Management** | Powerful financial applications—simple enough for small companies and comprehensive enough for complex multinationals. Acumatica's Financial Management has standard financial processes (GL/AP/AR) and reports used by national and international organizations, plus multicompany and intercompany accounting, fixed assets, recurring and deferred revenue, and cash management. |
| **Customer Management** | Acumatica's Customer Relationship Management (CRM) is fully integrated with the other suites. Customer Management uses dashboards and reports to provide real-time data on all customer activities: quotes, orders, invoices, payments, and support cases or service calls. A self-service Customer Portal lets you give customers access to the information they need. |
| **Distribution Edition** | Acumatica's Distribution Edition works together with Financial Management as a full distribution solution. From Quote-to-Cash and Purchase Requisition-to-Payment, automated processes help eliminate delays and reduce errors. Features include: warehouse management, lot and serial number tracking, automated POs, discounts and promotions, and more. |
| **Project Accounting** | Deliver project objectives on time and on budget with Acumatica's Project Accounting. Handle complex billing rules and easily calculate project revenue based on key project-specific attributes. Keep better track of costs by correctly accounting for work in progress (WIP) and change orders. |
| **Manufacturing Edition** | Integrate production planning and shop floor with customer management, sales orders, engineering changes, inventory, purchasing, and accounting. The Manufacturing Management Edition includes BOM and Routing, Material Requirements Planning (MRP), Production Control, Quoting and Estimating, Product Configurator, and Advanced Planning and Scheduling. |
| **Field Services Edition** | Maintain a real-time view of customer activities across all your operations when field service operations are fully integrated with the back office. Streamline dispatching, reduce response times, and minimize costs with the Acumatica Field Services Edition that works with CRM, sales, inventory, purchasing, accounting, and financial reporting. |
| **Commerce Edition** | Deliver a consistent customer experience across all your sales channels with full integration between your online, mobile, and in-store service. This complete eCommerce ERP solution tightly integrates a robust eCommerce platform with Acumatica's Financials, Sales, Inventory, CRM, and Fulfillment systems. |
| **Construction Edition** | Improve margins and project control at all stages of home, multi-family, commercial, mixed-use, land development, and government projects. Check dashboards for revenue, costs and commitments. Equip staff and subcontractors with secure apps for time entry, electronic signatures, and more—all with phones and tablets. Connect to construction applications such as Smartsheet, Procore, and ProEst for an end-to-end solution. |
